Summary

.NET Full-Stack Developer (2+ yrs) — skilled in C#, ASP.NET Core Web API, Angular 17, SQL Server/Dapper, and JWT. Experienced in delivering enterprise-grade applications with Agile, Git and unit testing. Proven ability to ship secure, scalable features and build developer productivity tools.

Skills

Programming Languages:	C#, SQL, TypeScript, JavaScript, HTML, CSS
Frameworks & Libraries:	ASP.NET Core, Web API, Angular 17, Bootstrap, RxJS, Entity Framework, Dapper, Open XML SDK, iTextSharp, Microservices
Dev Practices:	Git, Azure DevOps, Agile
Tools & Platforms:	VSTO, SSMS, Firebase, Postman

Professional Experience

Software Engineer, Sep 2023 – Present
Audree Infotech, Hyderabad

- **Technologies:** Angular, .NET Core, Dapper, VSTO, SQL Server, Azure DevOps
- Developed a Batch Record Management System with automated DOCX/PDF workflows; enabled rapid retrieval of lakhs of records using Angular DataTables with server-side pagination.
- Built a .NET CLI tool that auto-generates controller, model, repository, and business layers with dependency injection, reducing boilerplate setup time by 99.7% (from 2 hours to 20 seconds).
- Identified repetitive code patterns through keen observation and refactored them into shared, reusable modules, applying creative problem-solving to improve maintainability and consistency across components.
- Implemented **unit testing and automated regression checks**, ensuring higher reliability before releases.
- Contributed to **Agile sprints**, participating in sprint planning, peer code reviews, and daily standups.
- Used **Git and Azure DevOps pipelines** for version control, and production deployments.

Internship, June 2023 – Sep 2023
Audree Infotech, Hyderabad

- Gained hands-on experience in C, ASP.NET, MVC, and .NET Framework through real-world projects.
- Worked with SQL databases and ORM tools like Entity Framework for data management.

Internship, Dec 2021 – Feb 2022
Score Kitty, Hyderabad [Remote]

- Designed a dynamic frontend to enhance the user interface (UI) and user experience (UX)
- Customized and maintained WordPress sites using Elementor, significantly reducing design turnaround time and streamlining client feedback cycles
- Ensured mobile responsiveness and cross-platform compatibility of web applications

Projects

.NET API Code Generator (NuGet Package) [[CodeGenTool](#)]

- **Technologies:** C#, .NET, NuGet, File I/O, Regular Expressions
- Automates Controller, Model, Repository, and Business layers with DI; reduces setup time by 99.7%.
- 1000+ downloads; actively maintained (v1.0.7).
- Supports modular architectures and configurable CRUD generation.

Batch Record Management System

- **Technologies:** .NET, Angular, SQL, VSTO, WPF, iTextSharp, JWT, Windows Scheduler, Microservices
- Digitalized document handling, approvals, and compliance workflows.
- Optimized data handling with server-side pagination; rendered 100k+ records in 3s.
- Implemented automated cleanup jobs, reducing memory spikes by 30%.

Process Work Order (PWO)

- **Technologies:** .NET Core, Angular, SQL Server, Azure DevOps, Entity Framework, DDD, IIS
- Developed system for reporting engineering equipment issues.
- Delivered CRUD features with bulk upload support and consistent resolution tracking.

Education

B.Tech in Information Technology,

VNR Vignana Jyothi Institute of Engineering & Technology – Hyderabad, Telangana, India

2020 – 2023

CGPA: 7.3 / 10

Specialized Courses

Google Certified UX Design Fundamentals – Coursera, Oct 2022 ([Certificate](#))

Oxford Achiever English Proficiency ([Certificate](#))

Languages Known

English - Fluent

Hindi - Fluent

Telugu - Fluent

Urdu - Native

Declaration:

I hereby declare that all the above information is true and correct to the best of my knowledge and belief.
